KIAWAH ISLAND UTILITY, INC.

DOCKET NO. 2011-317-W/S

BEFORE THE SOUTH CAROLINA PUBLIC SERVICE COMMISSION

AFFIDAVIT OF _____

Personally appeared before me, PATRICIA M. FLANAGAN, who, being duly sworn,
avers as follows:

1. I am an owner of a home on Kiawah Island at 519 Buffum Road. I have
been an owner of a home since 1983.

2. I have been a customer of Kiawah Island Utility, Inc. (the "Utility") since
1983.

3. I have always found the Utility to provide high quality water service.

4. It has been my experience that the Utility provides dependable service to
its customers while maintaining rates competitive with neighboring communities.

5. The Utility has not sought an increase in rates for over 10 years (other
than the pass through cost of purchased water). No other business of which I am aware
has held its prices steady for the last ten years. In my opinion, the Utility should be
commended for the exceptional service they provide while holding increases to a
minimum.

6. I have always found the Utility staff to be responsive and knowledgeable.
They encourage conservation and offer individual attention as requested, and have
provided timely responses to emergency situations.

7. I have always found there to be excellent communication between the
Utility and its customers (for example, I found the Utility's annual report that to be
informative and helpful).

8. I understand that the Utility is entitled to a reasonable rate of return on
investment. The Utility is a business, not a non-profit, and entitled to be treated as one.

9. I have found Kiawah to be an exceptional community, and the Utility is committed to have adequate infrastructure to ensure reliable, high quality service, both now and in the future.

10. The Utility has always provided me with uninterrupted delivery of water.

11. It is my opinion that the Utility's request for a secondary water line is essential to ensure that all residents and guests can continue to enjoy their water without experiencing interruptions in service, volume, or quality.

12. It is also my opinion that the Utility must have dependable infrastructure to ensure that the reliable, high quality service we all enjoy will continue into the future.

13. In light of the foregoing, I enthusiastically support the Utility's request for a rate increase.

Further Affiant Sayeth not.
